Portfolio website

PROFILE

Second-year university student and aspiring game developer with 1+ year of practical experience. Builds Unity and JavaScript games, creates 3D assets in Blender, and has completed a 3-month game development course. Strong communicator with leadership experience, and proficient in English (Level 6B certified).

EDUCATION & TRAINING

University

Second year · Current

Second-year university student focusing on technology and creative development.

Game Development Course

3 months · Completed

Completed a 3-month game development course covering core gameplay, prototyping, and practical project work.

English Level 6B

Certificate

Completed English Level 6B — proficient English communication. [Open certificate page](#)

TECHNICAL SKILLS

Programming

C#, C++, Java, JavaScript

Game Development

Unity, JavaScript games, prototyping

Language

English — Level 6B (proficient)

Web

HTML, CSS, JavaScript

3D

Blender (modeling, environments, assets)

SOFT SKILLS

Communication

Clear verbal and written communication;
comfortable explaining ideas and collaborating with others

Leadership

Able to guide teammates, organize tasks, and keep group projects moving toward clear goals

PROJECT EXPERIENCE

Picoos Adventure

Unity · GitHub

Unity game project exploring gameplay systems, levels, and interactive adventure mechanics. **View repo**

Unity Game Projects

4 projects

Built and iterated on 4 Unity projects using C#, focusing on playable prototypes, core gameplay loops, and practical game systems.

Blender 3D Projects

4 projects

Created 4 Blender projects including environments, props, and 3D assets for game and visual presentation use.

JavaScript Game Development

Experience

Experience building browser-based games and interactive demos with HTML, CSS, and JavaScript.

CORE STRENGTHS

- Unity game prototyping with C#
- 3D asset and environment creation in Blender
- JavaScript / web-based game experiments
- Strong communication skills for teamwork and presentations
- Leadership skills for organizing and guiding group work
- Fast learner with completed formal game development training
- English proficiency suitable for international collaboration (Level 6B)
